CREENTIAL COURSE INFORMATION

New York State School-Age Care Credential

NYS Network for Youth Success administers the most successful School-Age Care Credential program in the nation. Developed in collaboration with the New York State Office of Children and Family Services Bureau of Early Childhood Services and Cornell University, the New York State School-Age Care Credential is designed to promote quality services to children and families by providing specific standards, training and evaluation of afterschool practitioners.

The three (3) parts to getting this credential:

Step 1: Distance learning course through NYS Network for Youth Success:

The Distance Learning School Age Care Preparation Course will meet live weekly, requiring simultaneous access to telephone and internet service. Technological requirements for distance learning students include: high speed internet, access to a digital camera, computer microphone and speakers OR long distance phone service. These live sessions are supplemented by independent online discussion amounting to 1-2 hours weekly. Visit www.NetworkForYouthSuccess.org for more information.

Step 2: Securing an Advisor for the Required Observations:

When you are taking the second session of this course, you will need to work with an Advisor who will document your competence through performing three (3) observations. Contact the Child Care Council of Orange County Inc., Beth Mindes x225 for more information.

Step 3: Required Assessment through Afterschool Works NY:

The School-Age Care Credential Endorser observes the Candidate and reviews his/her documentation. The Endorser also interviews the Candidate, and makes a recommendation regarding the Candidate's competence to the Credentialing Agency. Either the Candidate is awarded the New York State School-Age Care Credential or that the Candidate be deferred for additional training and to reapply at a later time when s/he has received that training.

In conjunction with the distance learning course, a candidate needs to develop a portfolio, a resource file and have three observation visits. **Child Care Council of Orange County charges \$400** to review the portfolio, resource file and perform the 3 required observation visits. Additional visits are \$100 each.

ACCREDITATION INFORMATION

School Age Child Care Accreditation Agencies/Information

- NYS SACC Accreditation—visit <http://networkforyouthsuccess.org/>

NAEYC Accreditation for Child Care Centers

Early childhood program accreditation system requires programs to complete four steps to achieve NAEYC Accreditation. These four steps are designed to ensure that programs meet each of NAEYC's ten Early Childhood Program Standards, which represent NAEYC's definition of excellence for an early childhood program.

◆ STEP 1: ENROLLING IN SELF STUDY

Center programs study their performance relative to the NAEYC Early Childhood Program Standards and Accreditation Criteria using tools developed by NAEYC (or others) and make needed improvements. The self study process is self-paced and self-directed.

◆ STEP 2: BECOMING AN APPLICANT

After completing its initial self study, a program officially begins the accreditation process by submitting an application, and indicating that the formal program self assessment will be completed within one year.

◆ STEP 3: BECOMING A CANDIDATE

When the program submits its completed self-assessment report, the program becomes a candidate for NAEYC Accreditation. At this point, the NAEYC Academy begins the process of scheduling an on-site visit for the program.

◆ STEP 4: MEETING THE PROGRAM STANDARDS

During the on-site visit and through related documentation a program will be required to show that it meets all 10 NAEYC Early Childhood Program Standards.

Visit <https://www.naeyc.org/accreditation> for more information.
